

Introducing

# Borderline

fencing that outlasts

Traditional metal wire fencing has been superseded.

Citiscapes new range of plastic wire and accessories for fencing eliminates the need for using metal wire with its inherent limitations.

Borderline can be used in all fencing applications, with full tension holding capabilities.

UV stabilised for a lifetime in the harsh Australian climate.

Borderline is extremely tough, far outweighing the mechanical resistance of steel wire.

Can be used  
with all post  
types

- ✓ Safer than steel
- ✓ No rusting
- ✓ Unique Polymer - returns to original tension
- ✓ Easy and fast to install
- ✓ UV Guaranteed
